

January 6th 2022

Mr. Rafet Fatih Özgür
SVP Corporate Communications
Turkish Airlines Inc.
Türk Hava Yolları A.O. Genel Yönetim Binası
Yeşilköy Mah. Havaalanı Cad. No:3/1
Bakırköy, 34149
İstanbul, Türkiye

Dear Mr. Özgür,

Further to the recent exchanges of email between our respective companies and colleagues I would like to confirm that Turkish Airlines currently connects more countries than any other airline operating scheduled services today.

This information was pulled from our OAG Analyser product on 6th January 2022 and is based on operating passenger connections for w/c 1st November 2021. For confirmation of the analysis I have attached in this email an Excel file that confirms our analysis.

As I am sure you are aware, OAG are the industry leading distributor of airline schedules to the travel communities and as part of that process we receive frequent daily updates on airline schedules and planned services for the forthcoming calendar year.

May I take this opportunity to congratulate you and your company on such an achievement and at the same time remind you that airline schedules constantly change and expand so please expect competition to retain such a prestigious position.

With best wishes

Yours sincerely

Mark Clarkson

OAG EVP Commercial
